Training led by Survivor Space Oxfordshire for Charities and Organisations working with Survivors of Sexual Violence

In today's workplace, ensuring a safe, respectful, and inclusive environment isn't just a legal requirement—it's a business necessity. Sexual harassment awareness training is critical in fostering a culture of respect, reducing liability, and enhancing employee well-being. The effectiveness of training largely depends on how it is delivered. We believe that face-to-face training goes beyond being a simple checkbox exercise—it creates a meaningful impact that can transform an organisation's culture. This approach allows for tailored support, interactive Q&A sessions, and customised training designed specifically for your setting.

Sexual Violence Awareness

This is a **one day** course that is aimed at **people working with survivors** of sexual violence.

On this course, the individual learns about: the **nature and scale** of sexual violence, the **myths surrounding sexual violence**, the **impact on** survivors, the **barriers to reporting,** and the **skills** required to **respond to disclosures** as well as the **options and resources** available for survivors.

Sexual Harassment Awareness

2–3- hour session **bespoke** to your requirements, incorporating your **policies and procedures** for reporting and managing **disclosures** of sexual harassment.

Ideal course for **leaders, managers and staff** within a business to **understand sexual harassment** and the **law**, how **prevalent** it is in the UK, what you can do to **prevent it** within your work setting and how to **respond to disclosures** of sexual harassment.

Training costs depend on the chosen course, length of training and the number of participants. Please contact us at **training@survivorspace.org.uk** to find out how we can tailor our training to meet your individual requirements. SVA/SHA are accredited courses with certificates issued.

"Survivor Space Oxfordshire has delivered Sexual Harassment Awareness Training to all of our support staff at St Hugh's. After attending the face-to-face training, our staff have fed back that they feel more informed and confident in recognising sexual harassment in the workplace. The training provided clear, practical examples and helped our staff to understand the importance of creating a safe and respectful work environment. We have already seen a positive impact with staff now openly discussing harassment, contributing to a more open, respectful culture."

Sexual Harassment Awareness

We have received really fantastic feedback from those who attended… We have also seen the value in having an external and impartial provider deliver this type of face-to-face training.

Eva Mahar, St Hugh's College

Sexual Harassment Awareness

Please can you provide our thanks to the trainer for the session she led for us last week…just to let you know that wider informal feedback from conversations over the past few days suggest people found the session very informative, useful and very well delivered.

Mike NDM – CGHR

Sexual Harassment Awareness

The clarity of the information and guidance presented using very good examples. A very worthwhile presentation. very informative and would be very well received by our staff.

St Hilda's College

Sexual Violence Awareness

I thought I knew and understood consent, but the way you talked about it was so clear and added to my understanding. You talked about the interplay of the 3 aspects and how they all have to be in place. I hadn't thought about consent in this way before.

Participant from SVA Training

Sexual Violence Awareness

The facilitator was very friendly, approachable and knowledgeable. She turned what could be a very difficult day into a manageable and informative training day
