"Survivor Space Oxfordshire has delivered Sexual Harassment Awareness Training to all of our support staff at St Hugh's. After attending the face-to-face training, our staff have fed back that they feel more informed and confident in recognising sexual harassment in the workplace. The training provided clear, practical examples and helped our staff to understand the importance of creating a safe and respectful work environment. We have already seen a positive impact with staff now openly discussing harassment, contributing to a more open, respectful culture."

Consent Training

I felt like it covered a good range of important topics and I liked that the speaker was direct and clear about information.

St Hugh's College, Oxford

Sexual Harassment Awareness

Wider informal feedback from conversations over the past few days suggest people found the session very informative, useful and very well delivered.

Mike NDM - CGHR

Sexual Violence Awareness

I thought I knew and understood consent, but the way you talked about it was so clear and added to my understanding. You talked about the interplay of the 3 aspects and how they all have to be in place. I hadn't thought about consent in this way before.

Participant from SVA Training

Vicarious Trauma Training

Lots of food for thought for working practices. I would highly recommend this training to other organisations.

Irwin Mitchell - LLP

Sexual Harassment Awareness

We have received really fantastic feedback from those who attended... We have also seen the value in having an external and impartial provider deliver this type of face-to-face training.

Eva Mahar, St Hugh's College

Consent Training

Responsible and respectful discussions which were more nuanced than just "don't rape" and offered practical advice for situations.
